

# GYUNAY KADIROV

## Software Developer

[web-dev@gyunay-kadirov.com](mailto:web-dev@gyunay-kadirov.com) | [\(778\)861-9031](tel:(778)861-9031) | [gyunay-kadirov.com](https://gyunay-kadirov.com) | [github.com/gyunayK](https://github.com/gyunayK) | [linkedin.com/in/gyunayk](https://linkedin.com/in/gyunayk)

## EXPERIENCES

### Full-stack Developer | Waniskâw Foundation, Victoria BC, Canada

Dec 2023 - Present

- Architected Node.js backend endpoints to enhance server-side processing efficiency and integrated AWS S3.
- Utilized SASS to develop a responsive user interface, ensuring seamless access to educational content.
- Crafted visual components with p5.js, bolstering the platform's capability to engage users in digital art creation.

### Front-end Developer | Summations, Toronto ON, Canada

Aug 2023 - Present

- Optimized web assets by implementing code splitting, achieving a 30% reduction in load times and substantial web performance improvements verified by Lighthouse benchmarks
- Crafted custom Mantine UI components, achieving a 20% increase in accessibility score, significantly improving the user interface, and enriching the user experience for a diverse academic audience.
- Utilizing Next.js 14 for server-side rendering improved SEO and performance for Summations' website.
  - Enhanced mobile responsiveness in alignment with Google's mobile-first indexing, leading to higher SEO rankings and improved user experience.
- Conducted thorough quality control, rigorously testing website features for optimal performance.
  - Proactively identified bugs and collaborated with developers for timely resolutions, boosting site reliability and user experience.

### Front-end Developer | eEpic Technologies, Vancouver BC, Canada

Aug 2023 - Dec 2023

- Optimized data retrieval with GraphQL queries, boosting application performance by 15%.
- Integrated APIs for dynamic content and services, boosting web app functionality and user engagement.
- Fostered a collaborative environment with the development team, ensuring seamless integration of frontend and backend components, while enhancing team synergy and project communication.

## SKILLS

JavaScript | HTML | CSS | React | TypeScript | Redux | styled-components | Material UI | TailwindCSS | NodeJS  
Express | MongoDB | MySQL | PHP | GraphQL | Docker | Strapi | Mantine UI | Stripe | AWS | Bootstrap

## PROJECTS

### Full stack app

Oct 2023

Kadirov Shop - (React / SASS / Strapi / Stripe)

- Architected an interactive e-commerce platform with React.js and SASS, enhancing the user interface and streamlining content management.
- Enhanced the e-commerce platform with Stripe integration, offering secure payment options and a smooth checkout experience to improve customer satisfaction.

### Full stack app

Jul 2023

Movie Deck - (React / Node.js / Express / MongoDB / TailwindCSS / Styled-Components)

- Designed a user-centric movie application featuring React and Styled-Components, supported by a robust Node.js and Express server architecture.
- Incorporated MongoDB for efficient data management and employed JWT and bcrypt to fortify user authentication and secure password handling.

## EDUCATION & CERTIFICATIONS

### Web and Mobile Application Development Diploma

Sep 2022 - Nov-2023

Cornerstone International Community College of Canada

### AWS Solutions Architect - Associate Certification

In progress
