EXPERIENCES

Full-stack Developer | Waniskâw Foundation, Victoria BC, Canada

Dec 2023 - Present

- Architected Node.js backend endpoints to enhance server-side processing efficiency and integrated AWS S3, providing a secure and scalable solution for managing user data and digital assets.
- Utilized Tailwind CSS to develop a responsive user interface, ensuring seamless access to educational content.
- Crafted interactive and dynamic visual components with p5.js, bolstering the platform's capability to engage users in digital art creation.

Front-end Developer | Summations, Toronto ON, Canada

Aug 2023 - Present

- Optimized web assets by implementing code splitting, achieving a 30% reduction in load times and substantial web performance improvements verified by Lighthouse benchmarks
- Utilizing Next.js 14 for server-side rendering, resulting in improved SEO and performance for Summations' website.
 - Enhanced mobile responsiveness in alignment with Google's mobile-first indexing, leading to higher SEO rankings and improved user experience.
- Crafted custom Mantine UI components, achieving a 20% increase in accessibility score, which significantly improved the user interface and enriched the user experience for a diverse academic audience.
- Conducted thorough quality control of the website by rigorously testing all features and functionalities to ensure optimal performance and user experience.

Front-end Developer | eEpic Technologies, Vancouver BC, Canada

Aug 2023 - Dec 2023

- Integrated a variety of APIs to add dynamic content and third-party services, improving the functionality and user engagement of the web application.
- Devised sophisticated GraphQL queries, which optimized data retrieval processes and contributed to a 15% improvement in the application's performance metrics.
- Fostered a collaborative environment with the development team, ensuring seamless integration of frontend and backend components, while enhancing team synergy and project communication.

SKILLS

JavaScript | HTML | CSS | React | TypeScript | Redux | styled-components | Material UI | TailwindCSS | NodeJS | Express | MongoDB | MySQL | PHP | GraphQL | Docker | CI/CD | Strapi | Mantine UI | Stripe | AWS | Bootstrap

PROJECTS

Full stack app

Oct 2023

Kadirov Shop - (React / SASS / Strapi / Stripe)

- Architected an interactive e-commerce platform with React.js and SASS, enhancing the user interface and streamlining content management.
- Enhanced the e-commerce platform with Stripe integration, offering secure payment options and a smooth checkout experience to improve customer satisfaction.

Full stack app

Jul 2023

Movie Deck - (React / Node.js / Express / MongoDB / TailwindCSS / Styled-Components)

- Designed a user-centric movie application featuring React and Styled-Components, supported by a robust Node.js and Express server architecture.
- Incorporated MongoDB for efficient data management and employed JWT along with bcrypt to fortify user authentication and secure password handling.

EDUCATION & CERTIFICATIONS

Web and Mobile Application Development Diploma

Sep 2022 - Nov-2023

Cornerstone International Community College of Canada

AWS Solutions Architect - Associate Certification

In progress
