

GYUNAY KADIROV

FRONT-END DEVELOPER

📍 Vancouver, BC | 📞 +1(778)861-9031 | 💻 gyunay-kadirov.com | ✉ web-dev@gyunay-kadirov.com | 🐙 [GitHub](#) | [in LinkedIn](#)

SUMMARY

A detail-oriented front-end developer skilled in React.js and JavaScript, I deliver responsive and visually appealing websites. Proficient in various front-end technologies, I ensure high-quality and timely project completion. With strong problem-solving skills and effective communication, I thrive in team settings, quickly adapting to new tools and frameworks as needed.

EXPERIENCES

Front-end Developer | eEpic Technologies Aug 2023 – Present | Vancouver, BC, Canada

- Developing and maintaining frontend components of the eEpic web application.
- Integrated a variety of APIs to add dynamic content and third-party services, improving the functionality and user engagement of the web application.
- Collaborating with the Company's development team to ensure seamless integration of frontend and backend components.

Front-end Developer | Summations Aug 2023 – Present | Toronto, ON, Canada

- Utilizing Next.js framework for server-side rendering to improve SEO and performance for Summations.
- Optimized web assets and implemented code splitting, reducing load times by 30% and improving overall web performance.
- Leveraging Mantine UI components to create a consistent and user-friendly interface for both academics and readers.

SKILLS

Languages: **JavaScript** | **TypeScript** | HTML | CSS |

Frameworks & Libraries: **React** | **Redux** | **NodeJS** | **Express** | **TailwindCSS** | **NextJS** | Strapi |

Familiar : MongoDB | Docker | MySQL | Supabase | MaterialUI | styled-components | Stripe |

PROJECTS

Kadirov Shop Online – (React, Strapi, SASS, Stripe) Aug – Oct 2023

- Developed a dynamic e-commerce platform using React.js with SASS styling, integrated with Strapi for efficient content management.
- Incorporated Stripe for secure payment processing and ensured optimal user experience throughout the shopping journey.

Movie Deck – (React, Node.js, Express, MongoDB, TailwindCSS) Jul – Aug 2023

- Designed and developed a user-friendly movie application, using React.js and Styled-Components for the frontend, and Node.js with Express.js for the backend.
- Implemented MongoDB for data storage and introduced JWT and bcrypt for secure user authentication and password encryption.

EDUCATION

Web and Mobile Application Development Diploma
Cornerstone International Community College of Canada

Sep 2022 – Present
