

# GYUNAY KADIROV

## Software Engineer

[web-dev@gyunay-kadirov.com](mailto:web-dev@gyunay-kadirov.com) |  (778)861-9031 |  Portfolio |  GitHub |  LinkedIn

## SUMMARY

Innovative Front-end Developer with solid expertise in React and Node.js, delivering enhanced website performance and superior user experiences through responsive design and strategic content management. Skilled in applying SEO best practices and advanced programming techniques to drive web project success. Committed to collaborative development, continuous technical improvement, and deploying robust, high-quality web solutions.

## EXPERIENCES

### Front-end Developer | Summations, Toronto, ON, Canada

Aug 2023 - Present

- Utilizing Next.js 14 for server-side rendering, resulting in improved SEO and performance for Summations' website.
  - Enhanced mobile responsiveness in alignment with Google's mobile-first indexing, leading to higher SEO rankings and improved user experience.
- Optimized web assets and implemented code splitting, achieving a 30% reduction in load times and substantial web performance improvements, as verified by Lighthouse benchmarks.
  - Developed seven reusable custom React hooks, enhancing code maintainability and efficiency, with the positive impact on performance confirmed through Lighthouse audits.
- Crafted and seamlessly integrated custom Mantine UI components, which significantly improved the user interface, enriching the user experience for a diverse academic audience and facilitating easier data access.

### Front-end Developer | eEpic Technologies, Vancouver, BC, Canada

Aug 2023 - Dec 2023

- Engineered and implemented responsive web solutions using Next.js and TypeScript, prioritizing mobile-first design.
  - Expertly utilized CSS Grid and Flexbox to engineer responsive layouts, guaranteeing seamless display adaptability from smartphones to high-resolution monitors.
- Integrated a variety of APIs to add dynamic content and third-party services, improving the functionality and user engagement of the web application.
- Devised sophisticated GraphQL queries, which optimized data retrieval processes and contributed to a 15% improvement in the application's performance metrics.
- Fostered a collaborative environment with the development team, ensuring seamless integration of frontend and backend components, while enhancing team synergy and project communication.

## SKILLS

JavaScript | HTML | CSS | React | TypeScript | Redux | styled-components | Material UI | TailwindCSS | NodeJS | Express | MongoDB | MySQL | PHP | GraphQL | Docker | CI/CD | Strapi | Mantine | Stripe | Sass | AWS | Jenkins

## PROJECTS

### Full stack app

Oct 2023

Kadirov Shop - (React / SASS / Strapi / Stripe)

- Architected an interactive e-commerce platform with React.js and SASS, enhancing the user interface and streamlining content management.
- Enhanced the e-commerce platform with Stripe integration, offering secure payment options and a smooth checkout experience to improve customer satisfaction.

### Full stack app

Jul 2023

Movie Deck - (React / Node.js / Express / MongoDB / TailwindCSS / Styled-Components)

- Designed a user-centric movie application featuring React and Styled-Components, supported by a robust Node.js and Express server architecture.
- Incorporated MongoDB for efficient data management and employed JWT along with bcrypt to fortify user authentication and secure password handling.

## EDUCATION & CERTIFICATIONS

### Web and Mobile Application Development Diploma

Sep 2022 - Nov-2023

Cornerstone International Community College of Canada

### AWS Solutions Architect - Associate Certification

In progress
