SUMMARY

Innovative Front-end Developer with solid expertise in React and Node.js, delivering enhanced website performance and superior user experiences through responsive design and strategic content management. Skilled in applying SEO best practices and advanced programming techniques to drive web project success. Committed to collaborative development, continuous technical improvement, and deploying robust, high-quality web solutions.

EXPERIENCES

Front-end Developer | Summations, Toronto, ON, Canada — Aug 2023 - Present

- Utilizing Next.js 14 for server-side rendering, resulting in improved SEO and performance for Summations' website.
  - Enhanced mobile responsiveness in alignment with Google's mobile-first indexing, leading to higher SEO rankings and improved user experience.
- Optimized web assets and implemented code splitting, achieving a 30% reduction in load times and substantial web performance improvements, as verified by Lighthouse benchmarks.
  - Developed seven reusable custom React hooks, enhancing code maintainability and efficiency, with the positive impact on performance confirmed through Lighthouse audits.
- Crafted and seamlessly integrated custom Mantine UI components, which significantly improved the user interface, enriching the user experience for a diverse academic audience and facilitating easier data access.

Front-end Developer | eEpic Technologies, Vancouver, BC, Canada — Aug 2023 - Dec 2023

- Engineered and implemented responsive web solutions using Next.js and TypeScript, prioritizing mobile-first design.
- Integrated a variety of APIs to add dynamic content and third-party services, improving the functionality and user engagement of the web application.
- Crafted sophisticated GraphQL queries, which optimized data retrieval processes and contributed to a 15% improvement in the application's performance metrics.
  - Designed and executed optimized GraphQL queries and mutations to handle large datasets with minimal latency.
- Fostered a collaborative environment with the development team, ensuring seamless integration of frontend and backend components, while enhancing team synergy and project communication.

SKILLS

JavaScript | HTML | CSS | React | TypeScript | Redux | styled-components | Material UI | TailwindCSS | NodeJS | Express | MongoDB | MySQL | PHP | GraphQL | Docker | CI/CD | Strapi | Mantine | Stripe

PROJECTS

Full stack app 🔗 ⓞ — Oct 2023
Kadirov Shop - (React / SASS / Strapi / Stripe)

- Engineered an interactive e-commerce platform leveraging React.js and SASS for a customizable user interface, coupled with Strapi for streamlined content management.
- Enhanced the e-commerce platform with Stripe integration, offering secure payment options and a smooth checkout experience to improve customer satisfaction.

Full stack app 🔗 ⓞ — Jun 2023
Movie Deck - (React / Node.js / Express / MongoDB / TailwindCSS / Styled-Components)

- Crafted a user-centric movie application with a sleek interface using React and Styled-Components, backed by a robust Node.js and Express server architecture.
- Leveraged MongoDB for efficient data management, and integrated JWT along with bcrypt for reinforced user authentication and secure password handling.

EDUCATION & CERTIFICATIONS

Web and Mobile Application Development Diploma — Sep 2022 - Present
Cornerstone International Community College of Canada
AWS Solutions Architect - Associate Certification (In Progress)
